CHAIRMAN

Mr. A G Ratnapala Samaraweera

The Maliban journey began in the early twentieth century. My father who was from the south of Ceylon, came to Colombo in search of greener pastures. My father, Angulugaha Gamage Hinnyappuhamy started his simple tea kiosk on First Cross Street in Colombo. His tireless effort succeeded in 1935 when he opened the Maliban Hotel at 62, Maliban Street in Pettah. With the success of the hotel, he expanded his business by starting his own artisan bakery in Kotahena. Products with superior quality and taste served to the customers increased the demand. Soon demand exceeded the supply. A decision was taken to install a mechanized manufacturing process, and in August 1954 the country's first mechanized biscuit manufacturing facility started operations. Over the next few years the unique taste of Maliban biscuits conquered the taste buds of connoisseurs of confectionary by beating the competition of international products at the same time. His passion was towards propagating a culture of inspiring goodness; within the Group, whilst proving the best quality products to the market bears testimony to his statement of "quality being his religion." At the time of inception, family members used to taste products to monitor the quality and output. To this day, this practice still continues in order to deliver uncompromised quality and taste to our consumers at all times.
